

35. (New) The single frequency weather station RF Telemetry alarm and display station of claim 23 wherein the indicating circuit comprises a signal strength indicator configured to indicate a signal strength of the data signal being received by the receiver.

36. (New) The single frequency weather station RF Telemetry alarm and display station of claim 14 wherein the receiver is configured to receive a telemetry signal from a NOAA weather radio.

37. (New) The single frequency weather station RF Telemetry alarm and display station of claim 23 wherein the receiver is configured to receive a telemetry signal from a NOAA weather radio.

REMARKS

Reconsideration and allowance of the subject application are respectfully requested. Claims 1-13 have been canceled and new claims 14-37 have been added.

Claims 1-13 stand rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-13 of prior U.S. Patent No. 5,978,738. Claims 1-13 have been canceled. Therefore, it is respectfully submitted that the rejection should be withdrawn.

In view of the above, it is respectfully submitted that the application is in condition for allowance. Reconsideration and prompt allowance are respectfully requested. If the Examiner feels that a telephone interview would be helpful in

requested. If the Examiner feels that a telephone interview would be helpful in facilitating prosecution of the case, the Examiner is respectfully requested to contact the undersigned attorney of record to discuss the application.

Respectfully submitted,
